Koch	Great class!
Koch	One of my favorite classes that I have taken at Tech. Dr. Koch was very helpful during his office hours and cares about his students despite the fact he has thousands of students. Would definitely take another class with him.
Koch	Really like the class, but professor goes off on a lot of tangents.

Koch	Very fun lectures, extremely fair tests with challenging questions that make you think on what has been taught. Overall loved this class and Dr. Koch.
Koch	By far my favorite professor I have ever had!
Koch	Professor would often just talk about himself and never about lecture material. Tests are absolutely awful with 30 true / false questions that we never went over in class.
Koch	Excellent teacher. Very passionate about his subject and topics. Great introductory course. I would have liked to have had more homework, in order to solidify my grade-- or raise it. The tests were questionable, and coming to class was borderline pointless.. but the Professor is top notch.

Koch	the best professor and one of the best people i've met in my life. changed my perspective on life forever
Koch	Dr. Koch was a funny and interesting professor who for the most part kept his students engaged yet I feel that there were too many tests in a short period of time. We had a test every other week and not a long time to study for them due to only having the class 2 times a week. I could not complete the full review until each of the classes were finished which made it hard to study. Although I struggled many others may have not.
Koch	I liked this class because Dr. Koch provided an interesting lecture and I actually learned quite a bit about sociology due to his class.
Koch	One of my favorite classes. Made me want to major in sociology almost then I realized I probably shouldn't.

Koch	I had an amazing experince that was both informative and enjoyable that gave me a new perspective about society and individuals.
Koch	I don't feel like he taught both points of view.
Koch	Loved the class and was a fun learning environment and experience.
Koch	This is one of my absolute favorite classes I have taken at this university, and it is all because of the wonderful professor. It is so obvious that he cares about his students and takes his job very seriously. The exams were very reasonable and the review sessions were VERY helpful. I learned so much from the lectures and it is all stuff that I will use in my future. One thing I wish he did was have an extra credit assignment because my final grade is JUST below an A. However, I do understand that this is very difficult with the number of students in each of his classes. I would absolutely recommend every student to take his class. Koch	Good teacher.
Koch	Dr. Koch is an amazing professor, the thing that I admired was his blatant knowing pf sociology and how he relates the material to his personal life. This not only made the class engaging, it made it extremely interesting. This class makes you think about your life and your interactions, very very good class and professor!
Koch	I really enjoyed this class. Professor Koch was outstanding and really connected with the class, even though it was a large class. He related his lectures to real life events and that helped me a lot in this class. Awesome professor and awesome class! Would definitely recommend this class to anyone.
Koch	Funny and interesting. Keeps your attention.

Koch	I enjoyed the class structure. The tests separated and broken down. The instructor was very easy to stay awake and follow. Although, I USUALLY despise teachers that do not give homework or any indication of what is on the test and just talk the entire class period, Dr. Koch made it work in that everything he said was not some random tangent, but he stuck straight to the test information and information that sticks with you. Very impressive lecturer. I am sad though he never again mentioned showing us his tattoo article again although he had a very rough ending to the semester, his recordings were just as good as him in person and just as helpful. I also read a textbook in sociology along with him and was impressed with how he stuck right in line with the textbook perfectly.
Koch	Professor Koch was one of my favorite professors. He explains things in a very comprehensive and intelligent manner, I connected with his examples and felt thoroughly prepared for every exam. He was fun and I enjoyed every lesson.
Koch	Dr. Koch is a stand up guy and a solid instructor. I enjoyed hearing anything he had to say about life or his class.

Koch	Dr. Koch made Sociology one of my favorite classes to attend this semester. He makes his lectures seem as though they are just a man telling a story to an audience rather than a professor doling out hundreds boring facts. He is very interesting and I would highly recommend him to anyone!
Koch	I had a hard time learning with him
Koch	I enjoyed Professors Koch's class quite a bit! I was not looking forward to his class since I was only taking it to receive a required credit, however I ended up finding his class incredibly interesting and informative.
