Koch	This course was very interesting and I am very happy that I got to take it. The instructor made the class engaging and presented the material in a fun way. I would highly recommend this course and instructor to any student
Koch	Captivating and interesting. Makes class a fun and enjoyable learning experience.
Koch	Professor Koch is an amazing teacher and his lectures are very interesting. This class ended up being one of my favorites I have taken
Koch	I consistently walked away from Dr. Koch's lectures with a new perspective on how I view the world and how the world views me. I also studied MCAT notes while taking this course and A LOT of the material covered is EXACTLY what I needed to know which is really neat, because I feel that everything that Dr. Koch taught me- he has TAUGHT me. It's not material that I think will ever leave my head. :) I appreciate this course and I truly appreciate Dr. Koch.
Koch	Great teacher

Koch	This was my favorite course I've taken while at Texas Tech. Not specifically the course, but the professor. Dr. Koch made learning fun and always had me leaving class with a smile. I will truly miss his class.
Koch	Great instructor, gives great examples and really tries hard to give interesting and meaningful lectures. Tests may be a bit confusing, yet if you study ahead of time then there's no reason why you shouldn't get a good grade.

Koch	A true delight
Koch	Great guy helped put things in perspective.
Koch	loved him
Koch	Dr. Koch is an amazing professor. His course work is very straight forward and as long as you show up for class and do the outside reading you will be set up for success on his exams. You can tell he loves the material he is covering and that made his lectures that much better.
Koch	This class is challenging but the instructor teaches the information an effective way, allowing you to be successful and learn the material.
Koch	Loved the energetic and uplifting attitude every class
Koch	Great lectures! The only comment I have is sometimes his digressions are hard to connect to the material.
Koch	Very understanding and cool Professor, learned a lot from his lectures
Koch	Dr. Koch is awesome! I thoroughly enjoyed his class because he made it entertaining and memorable. I appreciated that he always took the time to answer everyone's questions and gave us the opportunity to attend exam reviews with our TA, prior to every exam. Dr. Koch made a lasting impression on me, and I will look back on his lectures fondly. I plan to take another class with him before my time at Texas Tech ends.
Koch	If there was any choice higher than Strongly Agree, Dr. Koch would be more than deserving of it. Dr. Koch is the best professor, and among the best teachers I have ever had. I didn't even know what sociology was before taking his class, and now, after taking it, I love it. That's the true power of a good instructor. He knows this content forward and backward and levels with his students to make the entire experience a good one. He makes us WANT to be in class, and his lectures always have takeaways that are important to everyone present. I would love to take another class with Dr. Koch, and would absolutely suggest him as an instructor to everyone. A HUGE thank you to Dr. Koch for proving to me that college courses can be interesting and engaging, and for doing magic for us! What an awesome instructor. Texas Tech is lucky to have you. If you ever want to talk about magic, you already know I'm more than happy to. You could probably teach me a thing or two about my double lift... Thanks again, and I hope to see you around campus!
Koch	Great teacher! loved attending class!
Koch	I think he got off topic a lot. What he said in class did not match up to me.

	<b>Question: Comments instructor or course</b>
Koch	genuinely enjoyed having him as a teacher he made the class interesting and was easy to follow. his passion for this course was inspiring and he gave me a lot of perspective and knowledge outside of just test taking.
Koch	This class gave me new insights into things I would have never considered had I not taken it. I took this class for an easy A but I left with a better understanding of the world (also an A) and I'm very grateful for that. I would 100% recommend Dr. Koch and this class to anyone who needs their multicultural elective.
Koch	Outstanding teacher, great material, really opened up my mind. The TA, Ms. Larkin also held fantastic study reviews to help better our knowledge on the material. thank you both.
Koch	Ease up on the politics not everyone in college is a liberal. I also believe the research and statistics regarding many of the topics that were covered were biased and skewed in the direction you wanted the results to be.
Koch	Overall a great professor.
Koch	Great Instructor. My favorite class.
Koch	I really loved this course. Dr. Koch was so fun to listen to and was probably one of the first professors I've had that actually enjoyed their job. You could tell he was made to teach
Koch	I am more than honored to have had the privilege of sitting in your class and listening to lectures. They were always very interesting and insightful. They made me question who I was and consider other ways I should react and be as a person. You are one of the most humble teachers I have met at Texas Tech, and I will say you are the best one I have had in my four years here. I enjoy how open to other perspectives you are. So much so, that when I learned you are an ordained minister, I was and am tempted to ask if you would marry me and my fiancée. Either way, thank you for an amazing semester and being a wonderful person.
Koch	One of the greatest professors I've had in my life, if not the greatest. He makes the Class and lectures very interesting through good examples and stories . Mr Koch will make you want to go to class. Overall, this is a very valuable course, and would recommend Mr.Koch to anyone who would take SOC1301
Koch	Awesome teacher. Lectures are very eye opening and impacting. I have actually enjoyed this professor so much.
Koch	He's a great professor and the class is simple and easy to pass
Koch	I really enjoyed this course and the professor. Would recommend again.
Koch	Loved this class and Dr. Koch. He is hands down the best professor that I have had. His teaching style is very effective and he makes sure we have all the resources we need for every test so we can be prepared.
Koch	Dr. Koch is by far my favorite professor I have ever had. Overall great person, very prepared, and always passionate about teaching.
Koch	This course gave me a new unique look on society and community, and I loved the professor. He records all of his lectures which I found extremely helpful.
Koch	tests were hard. Professor Koch often out taught the material in ways I could not understand.

Koch	Dr.Koch is a very passionate and interesting professor and lecturer. However he is very left leaning, which wouldn't be bad if he didn't either caricature the right or fail to present their counterarguments at all. He has many opinions and goes off on tangents on why he is correct, and why the political right are wrong and want whats worse for society. I do not dislike Dr. Koch, but I disagree with his methods of lecturing.
Koch	Professor Koch's sociology class was overall one of the most interesting courses I have taken, the passion that he lectures with helps you engage easily in this class. Would take again
Koch	Good
Koch	I enjoyed this class a lot and it made me want to learn more about sociology. I added a minor in sociology after taking this class because I loved Dr. Koch's way of engaging with his students.
Koch	Great professor
Koch	Hard to understand sometimes, but other than that he made class very interesting. Great teacher even though I thought the class was very hard.
Koch	The class is nice, and I enjoyed the lectures. However, he tends to digress a lot (and for a long time) and sometimes doesn't give a clear definition of the vocabulary words/ topics
Koch	I always felt that the tests were a little different from the lecture material, but I loved the class and he is an amazing teacher.
Koch	I learned a ton, and was able to see the many different perspectives due to this class. I would highly recommend everyone to take this with Dr. Koch and seek to use this material in practical ways and think more about what's being taught.
Koch	Dr. Koch focuses on feeding you information you want to take in. Instead of reciting textbook information he gives you real life examples and stories and you don't even realize you're learning all the material as it's happening. You can tell he's passionate. A very nice man as well. 10/10 on his magic tricks
Koch	The lab was good, although a bit unorganized at times.
Koch	Dr.Koch is very entertaining and his lectures were genuinely interesting. He does a good job of finding analogies to use to better explain different theories and concepts. Overall a good experience for me.
Koch	Koch is the GOAT
Koch	Goes off on a lot of rants so it was hard to follow along at times but was a pretty neutral professor. I tried talking to him about a missing grade and he was very hard to approach and made me feel like I was asking a dumb question when in reality I really cared for my grade and wanted to improve it.
Koch	I enjoyed Dr.Koch's teaching style as well as the content of his lectures.
Koch	This class was an overall struggle for me to say the least. It wasn't due to how difficult the course was, but had everything to do with how opinionated the professor is. I believe everyone is entitled to their own opinions, but I don't think I should dread going to class because I know the professor is going to say something about the opinions I have. He is biased and includes articles that correlate with his own beliefs.
Koch	You can tell he enjoys what he's teaching and is very knowledgeable about sociology. He always seems in a good mood and enjoys being interactive with the class. Enjoyed him very much as my professor and learned a lot.
Koch	10/10 he keeps lectures fun
Koch	Sociology is just common sense. I just needed the credit.
Koch	Great professor
Koch	Best professor I have had at Texas Tech. This man kept the class into his lectures by telling jokes and doing mind blowing card tricks 10/10 would take again.
Koch	Great professor
Koch	Great teacher and interesting topics
Koch	This is by far my favorite class I've taken. Professor Koch is an outstanding professor and always brought so much to class each day. He makes the classroom a very friendly and enjoyable learning environment as well as making many resources available to us outside of class to help us understand material for exams. I would highly recommend taking this course, purely if taught by Professor Koch, and I hope to take one of his classes again.
Koch	I really enjoyed this class it gave me a new perspective on life and how people think.

Koch	I had a somewhat difficult time trying to comprehend how the questions were related to the topic, I didn't know how to study.
Koch	My favorite professor I have ever had.
