

Basic Research Question:

This is a question that links two BASIC CONCEPTS, such as

RELIGION, HEALTH, FAMILY, EDUCATION, ECONOMY, DEVIANCE, SOCIAL CLASS

Variables: Independent Variable = Cause

Dependent variable = Effect

These are often defined as “Frequency of” - some behavior or outcome. Or “incidence of” some set of events.

To begin:

1. Frame a Basic Research Question:

What is the relationship between \_\_\_\_\_ and \_\_\_\_\_?

2. Identify an Independent variable = \_\_\_\_\_

3. Identify a Dependent variable = \_\_\_\_\_

Note:

Variables are social realities that VARY.

Variables are MEASUREABLE.
