

Fall, 2022 SOCIOLOGY 1301 -- INTRODUCTION TO SOCIOLOGY
Dr. Jerome R. (Jerry) Koch, Professor jerome.koch@ttu.edu

Dr. Koch's Office Hours: Holden Hall 162. Tues. and Thurs. 8:00-9:15 a.m. & by appointment.
(806) 834-3920 (leave voicemail).

This course satisfies the Texas Tech University core curriculum requirement in Social and Behavioral sciences. Courses in this category focus on the application of empirical and scientific methods that contribute to the understanding of what makes us human. Courses involve the exploration of behavior and interactions among individuals, groups, institutions, and events, examining their impact on the individual, society, and culture.

The objective of the social and behavioral sciences in a core curriculum is to increase the student's knowledge of how social and behavioral scientists discover, describe, and explain the behaviors and interactions among individuals, groups, institutions, events, and ideas. Such knowledge will better equip students to understand themselves and the roles they play in addressing the issues facing humanity. Ideas inform ethics.

This course also satisfies the Texas Tech University graduation requirement for Multi-Cultural Study. This is because – SOCIOLOGY IS THE STUDY OF SOCIAL DIVERSITY. Sociologists research matters relating to the origin, persistence, and change in social norms, the make-up of diverse populations, and the meanings attached to the social construction of race, gender, and class. Introductory courses in this subject explore how people are ordered into societies, order themselves into groups, make and break rules of social order, and develop systems of reward and punishment. Basic theories are applied to a study of diversity within real life pieces of the society such as: the family, educational systems, government, the church, health-care systems, and the economy. Sociology also explores the persistence of, and change in, social processes of empowerment and oppression that separate individuals by race, gender, age, and social class.

COURSE FORMAT

Most of the material will be presented in lecture form. However, you will have the opportunity to learn from each other as various lecture topics are opened for discussion. The class itself is a sociology laboratory. We are a group. We will interact with one another according to formal and informal rules. We'll surely disagree about some things, hopefully with care, respect, and dignity. My goal in teaching this course is not only to present you with a body of material; I hope to help you *learn HOW to think, NOT WHAT to think!*. Sociology helps us understand why we do what we do. (We are fun to watch!)

Expected Learning Outcomes and Assessment: SOC 1301 helps to satisfy the Texas Tech University core curriculum requirement in social and behavioral sciences. SOC 1301 also satisfies the Texas Tech University multicultural requirement.

The objective of this core curriculum course is as follows: Students graduating from Texas Tech University should be able to demonstrate the ability to assess critically claims about social issues, human behavior, and diversity in human experiences.

Social and Behavioral Science Learning Outcomes:	Assessed By:
Identify and critique alternative explanations for claims about social issues and human behavior.	Student responses to exam questions and lecture quizzes testing their ability to separate causation from correlation, as well as determine alternate hypotheses for claims about social issues and human behavior.
Demonstrate knowledge of the appropriate ethical methods, technologies, and data that social and behavioral scientists use to investigate the human condition.	Students responses to exam questions and lecture quizzes testing their knowledge of research methods used to investigate social structure and human interaction, data collection, output interpretation, and the protection of human subjects.
Critical Thinking Skills: to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information;	Student responses to exam questions and lecture quizzes testing their knowledge, interpretation, and synthesis of comparative perspectives, competing theories, current research, and social issues.
Communication Skills: to include effective development, interpretation and expression of ideas through written, oral and visual communication;	Students will satisfactorily complete short "Ideas to Ethics" written assignments showing their ability to apply ideas presented in lecture to relevant issues of the day.
Empirical and Quantitative Skills: to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions;	Student responses to answer exam questions and lecture quizzes testing their ability to identify, calculate, and interpret data and statistical metrics relating to human behavior, including correct interpretation of graphs and charts.
Social Responsibility: to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.	Student responses to exam questions and lecture quizzes s testing their knowledge of the impact and ethics of structures in society such as education, religion, and government on the life-chances and – outcomes of regional, national, and global social groups and individuals. Students will also satisfactorily complete short "Ideas to Ethics" written assignments showing their ability to apply ideas presented in lecture to relevant issues of the day and their impact on the lives of others.

Multicultural Graduation Requirement Learning Outcomes:	Assessed By:
Awareness and knowledge of ethnicity, gender, and class	Student responses to exam questions and lecture quizzes testing their knowledge of the impact of racial, gender, and class-based identities on social action and interaction.
Awareness and knowledge of political systems, religions, languages	Student responses to exam questions and lecture quizzes testing their knowledge of the impact of organized religion, politics, education, and literacy on life-chances of diverse social groups and individuals.
Awareness and knowledge of human geography	Student responses to exam questions, lecture quizzes, and “Ideas to Ethics” essays showing their awareness of the effects of population growth and distribution (demography) on the structures and future of a given society.
Demonstrate awareness of and knowledge of cultural differences within one or more distinctive subcultures of the United States	Student responses to exam questions, lecture quizzes, and “Ideas to Ethics” essays showing their awareness and knowledge of the ways that subcultures can vary (particularly in norms and notions of deviance) and the effects of those variances.

The following pages detail the logistics and requirements of the class. It is not necessary that you AGREE that these policies are great ideas or comprise everything you would want in a class. However, this document is a contract. By continuing in the course beyond the first day, you agree by your behavior that you will ABIDE by these requirements and regulations. You in effect, “sign” the contract by choosing to continue in the class.

The Details:

1. **EXAMS** - There will be six of them, each comprised of 30 multiple choice and true-false questions. Each exam is unique to material presented this semester and is copyrighted as the intellectual property of the professor. 180 points may be earned on exams. Note:
 - a. Exams will be open book and open notebook.
 - b. Exams will “go live” at noon on each exam day and will be available for 36 hours. However, once you start, you must finish within 60 minutes, and you will only be able to make one attempt.

2. **IDEAS TO ETHICS** – These will be five short essays, four points each. They will be announced sporadically and become available for a fixed time period on Blackboard via an access code given during the relevant lecture(s). They are intended to be reflective summaries of what is often implied by our facts and ideas. Ideas and facts occur across cultures and within relationships. This inevitably involves asking hard questions of the sort, “Because we can ... should we?” 20 points may be earned on “Ideas to ethics” essays.
3. **MAKE UPS:** There are generally no make up opportunities for exams, quizzes, and essays. They are all announced WELL in advance and are open and available for significant and sufficient time. PAY ATTENTION PLEASE! Exceptions:
 - a. University sponsored activity. If you are serving the University such that you are away from your computer for the **entire** time exams are open and quizzes etc. are available, a make up will be scheduled.
 - b. ***If you are sick – GETTING BETTER IS THE MOST IMPORTANT MATTER – especially in a Covid world. See the lengthy section below on illness related matters. Heads up: Some reasonable verification will be in order and it would be a massive violation of world Karma if you’re not candid and honest about illness getting in the way. (Strive for honor).***
 - c. Other verified reasons may be handled on a case-by-case basis.

4. **READINGS:**

There is one textbook for the course:

Schaefer, Richard. 2021. Sociology: A Brief Introduction. 14th Edition. New York: McGraw-Hill.

A section of this text will be assigned for each topic. The text can be obtained in several ways:

1. Purchase an e-book access card from the TTU/Barnes and Noble Bookstore with a code to buy/rent the e-book. The code can be redeemed at:
2. Download (buy/rent) the e-book directly from McGraw-Hill (A small bit cheaper). Link:

Once you have the book, you can also download a “Read anywhere” app from McGraw-Hill. This link takes you to video instructions:
3. Purchase the book itself from Amazon or other primary and secondary market sources.

Note: ALL YOU NEED IS THE TEXTBOOK. You need not buy any form of add on called “Connect” or any other supplement to the text itself. Required supplemental readings and informational links will be available at NO CHARGE through Dr. Koch’s website: www.drjkoch.org. These links will also be posted to Blackboard.

Lecture material will be broadly based and will include material not covered in the readings. Readings will also have material not covered in lecture. **You should read all assigned material for each topic BEFORE coming to class.**

***** Test questions will be derived from both lecture and reading material. *****

Your grade in the class is figured as a percentage of 200 possible points: 180 on exams; 20 on Ideas to Ethics essays:

GRADING SCALE: 180-200=A 160-179=B 140-159=C 120-139=D < 120=F

EXTRA CREDIT LECTURE QUIZZES – While your grade will be figured based on 200 points, you can earn 20 extra credit points from lecture quizzes. Thus, you could theoretically earn 220 points out of 200, and have a 110% “average.” There will be five of these, made available at some point within each course segment. These four questions incentivize you to keep up with the material. They will become available on Blackboard via an access code given during the relevant lecture(s).

Special Note: There is no “rounding up” or “curving” your score.

University Policies:

Illness-Based Absence Policy. If at any time during this semester you feel ill, in the interest of your own health and safety as well as the health and safety of your instructors and classmates, you are encouraged not to attend face-to-face class meetings or events. Please review the steps outlined below that you should follow to ensure your absence for illness will be excused. These steps also apply to not participating in synchronous online class meetings if you feel too ill to do so and missing specified assignment due dates in asynchronous online classes because of illness.

1. If you are ill and think the symptoms might be COVID-19-related:
 - a. Call Student Health Services at 806.743.2848 or your health care provider.
 - b. Self-report as soon as possible using the Dean of Students COVID-19 webpage. This website has specific directions about how to upload documentation from a medical provider and what will happen if your illness renders you unable to participate in classes for more than one week.
 - c. If your illness is determined to be COVID-19-related, all remaining documentation and communication will be handled through the Office of the Dean of Students, including notification of your instructors of the period of time you may be absent from and may return to classes.
 - d. If your illness is determined not to be COVID-19-related, please follow steps 2.a-d below.
2. If you are ill and can attribute your symptoms to something other than COVID-19:
 - a. If your illness renders you unable to attend face-to-face classes, participate in synchronous online classes, or miss specified assignment due dates in asynchronous online classes, you are encouraged to visit with either Student Health Services at 806.743.2848 or your health care provider. Note that Student Health Services and your own and other health care providers may arrange virtual visits.
 - b. During the health provider visit, request a “return to school” note;
 - c. E-mail the instructor a picture of that note;

d. Return to class by the next class period after the date indicated on your note. Following the steps outlined above helps to keep your instructors informed about your absences and ensures your absence or missing an assignment due date because of illness will be marked excused. You will still be responsible to complete within a week of returning to class any assignments, quizzes, or exams you miss because of illness.

Other Considerations

Students with Disabilities. Any student who, because of a disability, may require special arrangements in order to meet the course requirements should contact the instructor as soon as possible to make any necessary arrangements. Students should present appropriate verification from Student Disability Services during the instructor's office hours. Please note instructors are not allowed to provide classroom accommodations to a student until appropriate verification from Student Disability Services has been provided. For additional information, you may contact the Student Disability Services office at 335 West Hall or 806-742-2405.

Civility in the Classroom. Texas Tech University is a community of faculty, students, and staff that enjoys an expectation of cooperation, professionalism, and civility during the conduct of all forms of university business, including the student–student and student–faculty interactions in and out of the classroom. Further, the classroom is a setting in which an exchange of ideas and creative thinking should be encouraged and where intellectual growth and development are fostered. Students who disrupt this classroom mission by rude, sarcastic, threatening, abusive or obscene language and/or behavior will be subject to appropriate sanctions according to university policy. Class discussion and group projects can be productive only in a climate of respect for the opinions and beliefs of all. A healthy exchange about issues may include disagreement about ideas, but it must not demean the character or background of the individuals holding those ideas. Similarly, you must respect the classroom space and the instructor by focusing your attention on the course during our class meetings. Class is not a place for catching up on missed meals or missed sleep. Please silence all cell phones before entering the classroom, and it is decidedly uncivil to make or take calls or text messages while in the classroom. Unexpected family emergencies, or anticipated information about a family crisis are exceptions. Please leave the room if you need to tend to such.

Scholastic Dishonesty. It is the aim of the faculty of Texas Tech University to foster a spirit of complete honesty and high standard of integrity. The attempt of students to present as their own any work not honestly performed is regarded by the faculty and administration as a most serious offense and renders the offenders liable to serious consequences, possibly suspension. "Scholastic dishonesty" includes, but is not limited to, cheating, plagiarism, collusion, falsifying academic records, misrepresenting facts, and any act designed to give unfair academic advantage to the student (such as, but not limited to, submission of essentially the same written assignment for two courses without the prior permission of the instructor) or the attempt to commit such an act. Please refer to TTU OP 34.12 for examples of actions considered to be dishonest. In this class, plagiarism, or the act of claiming someone else's work or idea as your own, is considered a serious violation of the University's policies on academic honesty. In this class plagiarism in any form will not be tolerated. If you have any questions whatsoever about what is (or is not) plagiarism, please ask me. If you are caught plagiarizing material in the class or copying from another student during an exam I will initiate disciplinary action with the Office of Student Conduct. If you are found to have committed a violation, it may result in your failure for that assignment, this entire class, and/or possible expulsion from the university.

Religious Holy Days (O.P.34.19). "Religious holy day" means a holy day observed by a religion whose places of worship are exempt from property taxation under Texas Tax Code §11.20. A student who

intends to observe a religious holy day should make that intention known in writing to the instructor prior to the absence. A student who is absent from classes for the observance of a religious holy day shall be allowed to take an examination or complete an assignment scheduled for that day within a reasonable time after the absence.

TTU Resources for Discrimination, Harassment, and Sexual Violence. Texas Tech University is committed to providing and strengthening an educational, working, and living environment where students, faculty, staff, and visitors are free from gender and/or sex discrimination of any kind. Sexual assault, discrimination, harassment, and other Title IX violations are not tolerated by the University. Report any incidents to the Office for Student Rights & Resolution, (806)-742-SAFE (7233) or file a report online at <http://titleix.ttu.edu/students> Faculty and staff members at TTU are committed to connecting you to resources on campus. Some of these available resources are:

TTU Student Counseling Center, 806-742-3674, <https://www.depts.ttu.edu/scc/> (Provides confidential support on campus.)

TTU Student Counseling Center 24-hour Helpline, 806-742-5555, (Assists students who are experiencing a mental health or interpersonal violence crisis. If you call the helpline, you will speak with a mental health counselor.)

Voice of Hope Lubbock Rape Crisis Center, 806-763-7273, <http://voiceofhopelubbock.org> (24-hour hotline that provides support for survivors of sexual violence.)

The Risk, Intervention, Safety and Education (RISE) Office, 806-742-2110, <http://rise.ttu.edu>

(Provides a range of resources and support options focused on prevention education and student wellness.)

Texas Tech Police Department, 806-742-3931, <http://www.depts.ttu.edu/tttd/> (To report criminal activity)

COURSE SCHEDULE: This schedule is subject to change as needs warrant. Changes will be clearly stated by all available means. Students are responsible for keeping track of the most current information regarding the scheduling of topics and exams. All materials, including required reading assignments for each topic/week, will be posted to Blackboard at 9:00 a.m. on the days listed below.

Part 1: Foundations

TH Aug 25: Introduction and Logistics

TUE Aug 30 Self and Society – How we fit into a multicultural society.

TH Sep 1: Theory I (Macro Theory) - Comparing the meaning of diversity.

TUE Sep 6: Theory II (Micro Theory) – Representing similarities and differences.

TH Sep 8: Research Methods & Ethics– Testing the meaning of diversity.

TUE Sep 13: Culture – The context of meaning, assimilation, and diversity

Thursday, September 15: In-Class Test Review. Test 1, 30 questions, opens on Blackboard, Noon, Thursday September 15. Closes at Midnight, Fri. September 16.

Part 2: On (mostly) a Micro Level

TUE Sep 20: Socialization – Learning who we are in relation to others.

TH Sep 22: Deviance – Causes and consequences of power distribution.

TUE Sep 27: Social Structure/Interaction – How diverse relationships are structured.

TH Sep 29: Groups, Networks, Organizations – Location of power and status.

Tuesday, October 4: In-Class Test Review. Test 2, 30 questions, opens on Blackboard, 12 Noon. Tuesday October 4. Closes at 12 Midnight, Wednesday, October 5.

Part 3: Social Class and Diversity – Where we make our living in Sociology

TH Oct 6: Stratification – Understanding the distribution of class, status, and power.

TUE Oct 11: Stratification and Race – Impact of race on class, status, power.

TH Oct 13: Stratification, Gender, and Age – Impact of gender & age on class, status, power.

TUE Oct 18: Religion and Diversity. Special readings and recorded audio presentation.

Thursday, October 20: In-Class Test Review. Test 3, 30 questions, opens on Blackboard, 12 Noon, Thursday October 20. Closes at 12 Midnight, Friday, October 21.

Part 4: Value-Based Social Institutions

TUE Oct 25: Family – Values and diversity, gender and power.

TH Oct 27: Education – Access and opportunity.

TUE Nov 1: Religion – Morality and diversity.

Thursday, November 3: In-Class Test Review. Test 4, 30 questions, opens on Blackboard, 12 Noon, Thursday November 3. Closes at 12 Midnight, Friday, November 4.

Part 5: Interest-Based Social Institutions

TUE Nov 8: Health and Medicine – Access and Inequality

TH Nov 10: Economy – Comparing the distribution of resources.

TUE Nov 15: Politics and Government – Power and control of resources.

Thursday, November 17: In-Class Test Review. Test 5, 30 questions, opens on Blackboard, 12 Noon, Thursday November 17. Closes at 12 Midnight, Fri. November 18.

Part 6: Stuff that doesn't fit anywhere else – and a poignant wrap-up.

TUE Nov 22: Study Day. Optional video assignment.

TH Nov 24: HAPPY THANKSGIVING

TUE Nov. 29: Collective Behavior – Living together in a pluralistic society

TH Dec 1: Communities and Population – Diversity in urban, suburban, & rural U.S.

TUE Dec 6: Social Change – The changing meaning of diversity.

The "Final Exam" is another test just like the others. It is the "Final" in the sense that it is the last one. There will be 30 questions, just like the others. It will “go live” on the day and time scheduled per the University’s Final Exam Schedule and remain so for 36 hours.
