25 <sup>th</sup>	<b>\$ 29,000</b>
10 <sup>th</sup>	<b>\$ 13,500</b>

## Selected Household Income Brackets 2016-2017

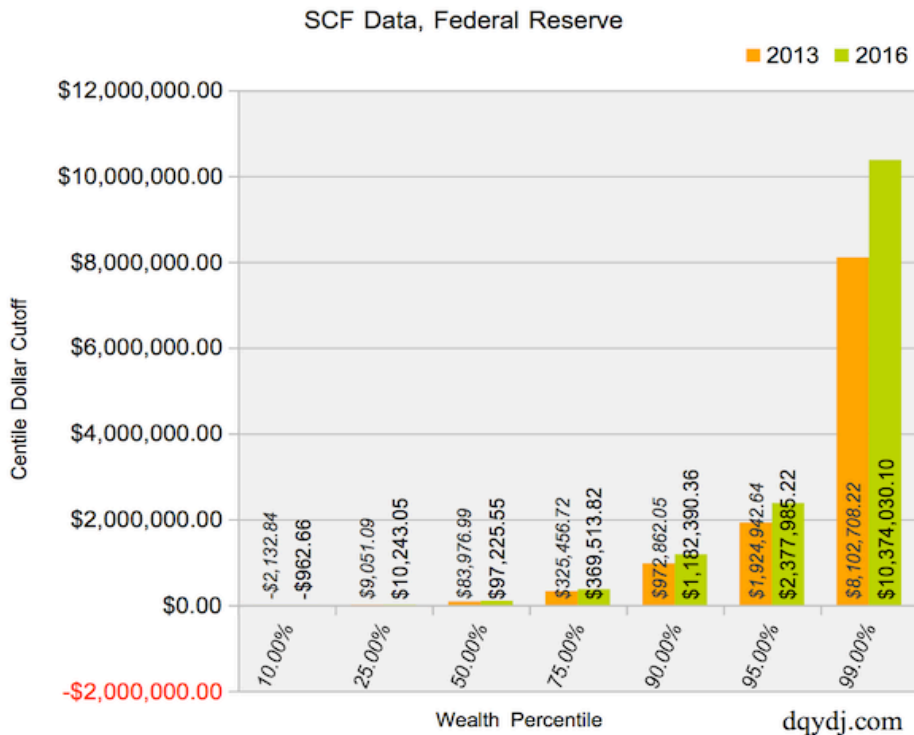

ASEC Data, IPUMS-CPS University of Minnesota

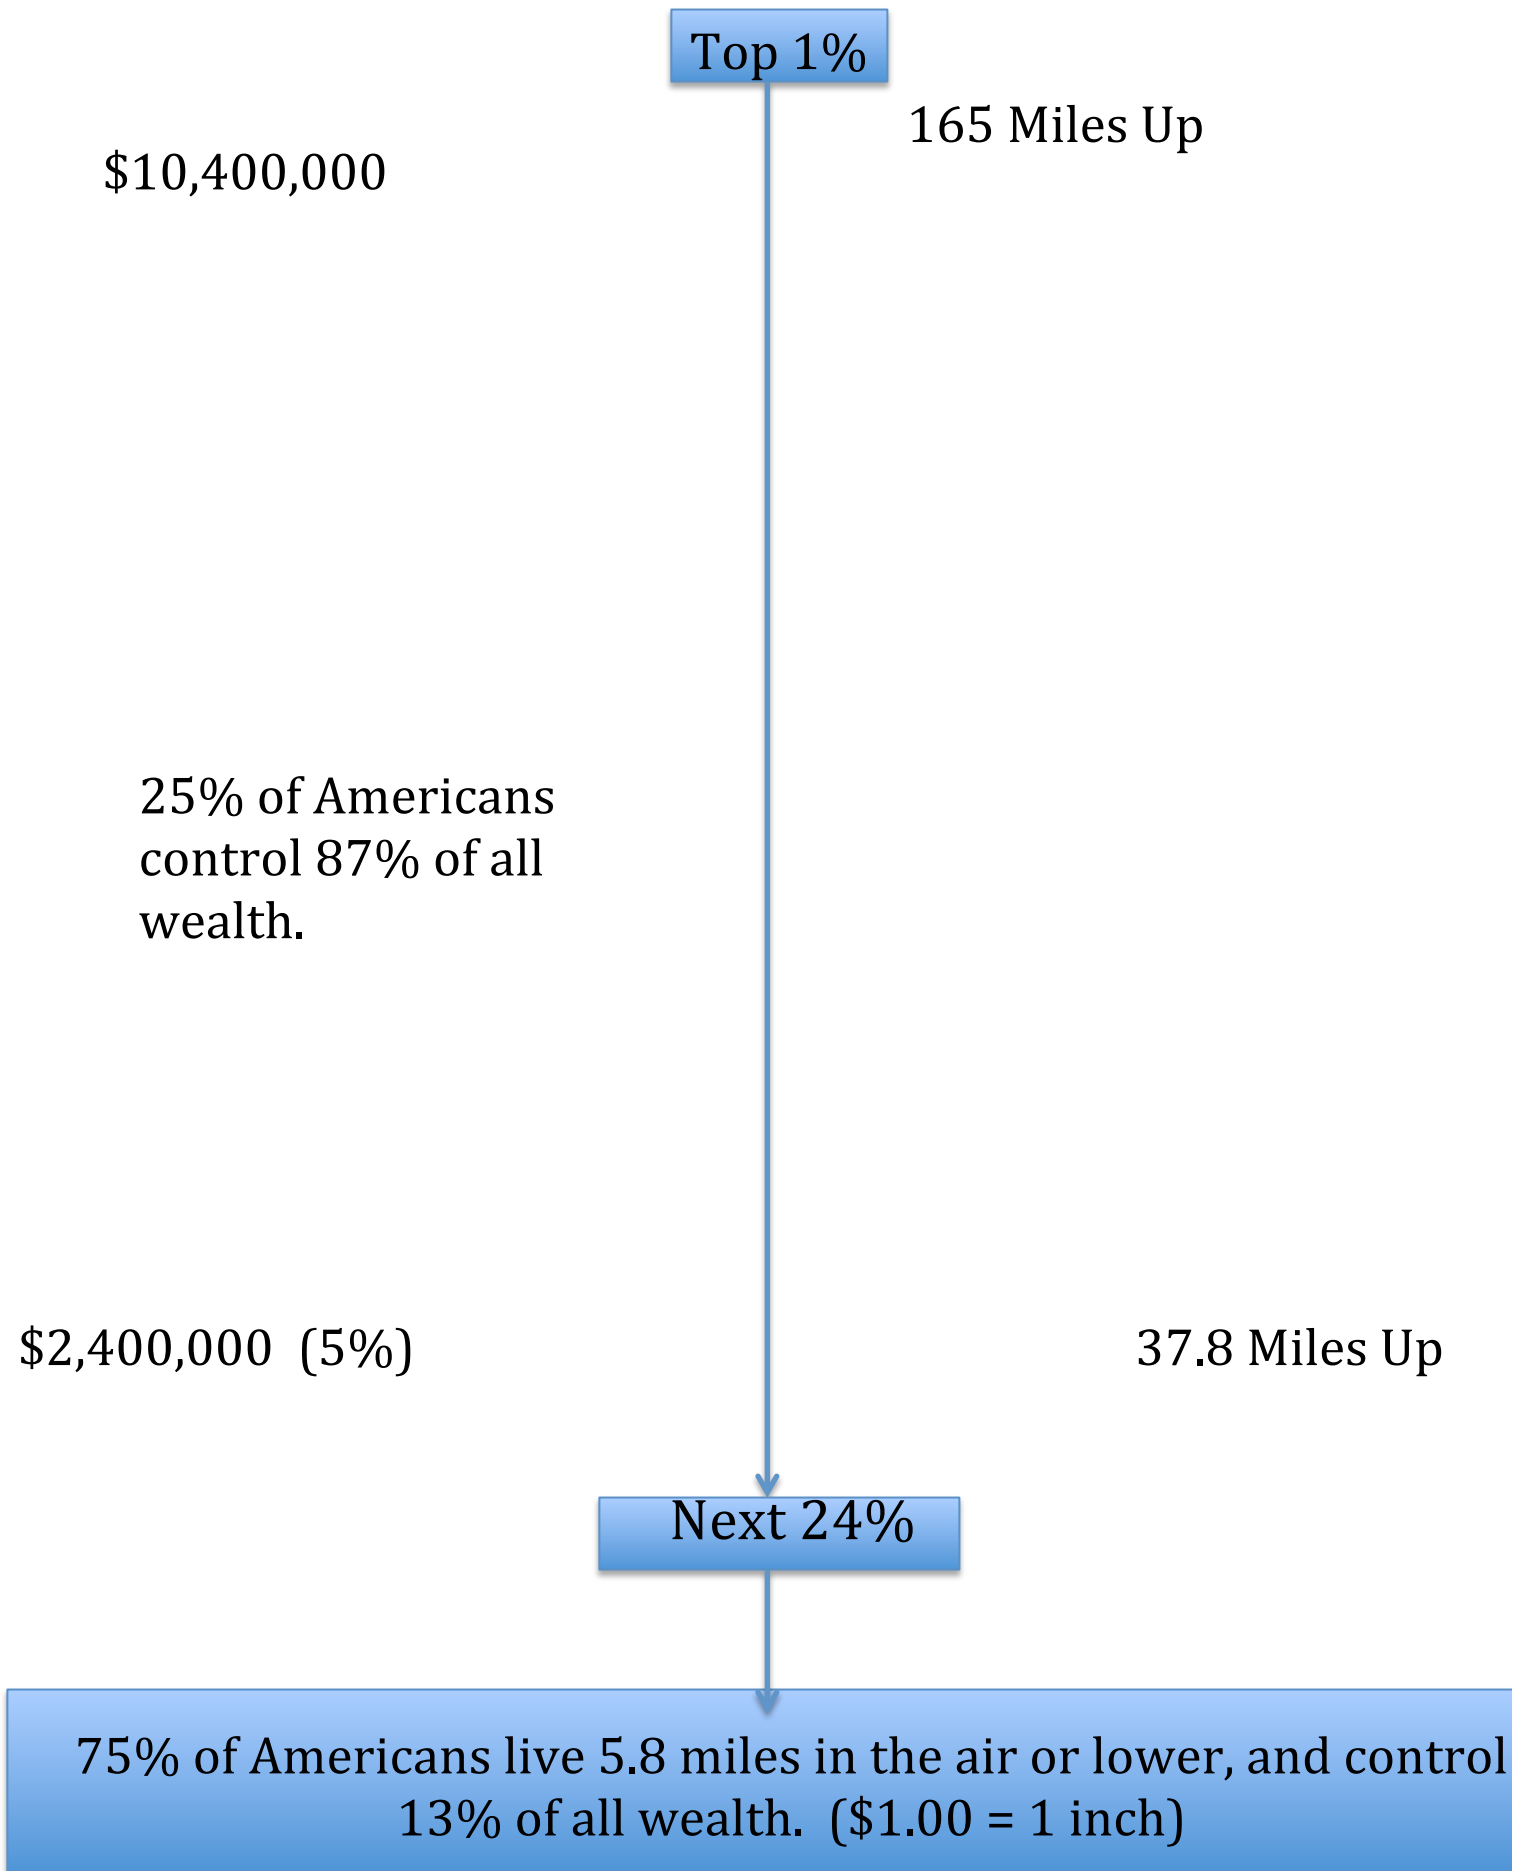

# Individual Net Worth

Percentile	Amount
99 <sup>th</sup>	\$10,400,000
95 <sup>th</sup>	\$ 2,400,000
90 <sup>th</sup>	\$ 1,180,500
75 <sup>th</sup>	\$ 369,500
50 <sup>th</sup>	\$ 97,225
25 <sup>th</sup>	\$ 10,250
10 <sup>th</sup>	\$ -1000

Selected Net Worth Brackets, 2013 vs 2016

Selected Net Worth Brackets for the United States

10% of Americans, however, have negative net worth and “live” underground.

# The Top 10 Wealthiest People in America (2019)

<b>Name</b>	<b>Net Worth</b>	<b>Source</b>
	(+/- ** B ) = change from 2018	
Jeff Bezos	116 Billion (-44 divorce)	Amazon
Bill Gates	106 Billion (+9)	Computers (Microsoft)
Warren Buffett	81 Billion (-7)	Investments
Mark Zuckerberg	70 Billion (+9)	Facebook
Larry Ellison	65 Billion (+7)	Computers (Oracle)
Larry Page	55 Billion (+1)	Google
Sergey Brin	54 Billion (+2)	Google
Michael Bloomberg	53 Billion (+1)	Invest. & Entertainment
Steve Balmer	52 billion (+10)	Computers (Microsoft)
Jim Walton	52 billion (+7)	Retail - Walmart

Some perspective on the wealthiest of the wealthy: Net worth of these 400 individuals = \$704 Billion.

That is more wealth than is held by ALL AFRICAN AMERICANS COMBINED.

Bezos, Gates, and Buffet alone have more wealth than the bottom HALF of all Americans.

The American Hospital Association estimates that indigent care costs American hospitals approximately \$40 billion a year.

At a hypothetical 5% interest, one year's earnings from the current net worth of Bezos, Gates, and Buffett would fund all indigent care for almost seven months.

The total 704 Billion net worth of these 10 people is equal to almost 18 years worth of indigent care.

No one I know would suggest the "Top Ten" should bear the burden of indigent care, although many of our nation's wealthiest individuals think the government should **not** do so.

One more:

1. The average net worth of the "Top Ten" is \$70 billion dollars.
2. Converting dollars to distance (\$1.00 = 1 inch), the Top Ten's average "distance" above ground is 1,104,798 miles. That is nearly FIVE times the distance between the Earth and the Moon. (Remember again that 10% of the US population has negative net worth, and is "below ground.")
